Goal:

Implement backend to scrape UCSC PISA and serve JSON data for a webserver. Output Lectures, Labs, and sections.

User Stories

1. As a user, I want a stable, well-maintained app built using professional standards so that I receive regular updates, fewer bugs, and a reliable experience. 5

1. Set up github and developer environment. (2)
2. Decide meeting time for scrum meetings. (1)
3. Either use github for pending issues or another platform like JIRA. (1)

2. As a user, I want to access a fast-loading website so that I can view course information instantly without waiting for long server responses. 5

1. Use a framework (Gin) for speed and simplicity. (3)
2. Write simple handler functions to serve static content. (2)
3. Have a skeleton for future RESTful API. (4)

3. As a user, I want the course data to be stored accurately and available every time I return to the site. 5

1. Download and install SQLite3 and spend time familiarizing ourselves with basic SQL queries. (5)
2. Connect to the database, and create tables or insert/replace data. (5)

4. As a student, I want to see a comprehensive and up-to-date list of class times and locations so that I can plan my schedule without checking multiple websites. 13

1. Look at the HTML source code by manually clicking through the class search pages. (6)
2. Use existing Python modules (beautifulsoup, requests) to scrape each page. (15)
3. Leverage regex matching to extract specific subsets of information, like days of the week. (4)
4. Grab several years worth of data to acquire a list of unique locations we can account for. (4)
5. Interface with SQLite3 using Python. (3)

Total Hours: 55

Team Roles

jdcody@ucsc.edu :	<i>Developer, Scrum Master</i>
jlores@ucsc.edu :	<i>Developer, Product Owner</i>
fveloz@ucsc.edu :	<i>Developer</i>
avaldesq@ucsc.edu :	<i>Developer</i>

Initial task assignment

jdcody@ucsc.edu :	<i>User Story 4, Task 1</i>
jlores@ucsc.edu :	<i>User Story 2, Task 1</i>
fveloz@ucsc.edu :	<i>User Story 1, Task 1</i>
avaldesq@ucsc.edu :	<i>User Story 3, Task 1</i>

Scrum times

TA meeting: Monday (10am-11am)
Team meeting 1: Tuesday (5pm-7pm)
Team meeting 2: Thursday (5pm-7pm)
Team meeting 3: Sunday (12pm-2pm)
